YILKAR

YH Series Air Heaters

Environmentally Friendly, Safe and Comfortable Heating

- Low emission values
- ECE R122 and R10 Certified
- Detects 22 different error codes
- Adaptive heating control, low consumption and precise temperature control
- Works everywhere with adaptive altitude control

Functional Installation

- Different outlet diameters
- All the accessories you need
- Control panels in different types and features

Easy Service Opportunity

- Easy assembly and service with 4-door design
- Effective solutions with the service diagnostic kit

YH 5

Bigger, stronger

- 5 kW heating capacity in maximum mode
- Ø 90 mm and Ø 75 mm outlet diameter option
- Air flow rate up to 180 m³/hour

Technical information	Values
ECE R122 Document Number	122 R - 0010869
ECE R10 Document Number	10R - 05 15114
Heating Capacity	1,0-5,0 kW
Heating air flow against 0.5 mbar (max mod)	180 m ³ /h
Fuel Type	Dizel
Fuel Consumption (max)	0,46 l/h
Operating voltage	12/24 VDC
Unit Dimensions	400x140x180 mm
Kit Weight	5,2 kg

YH 2

The perfect solution for small cabins

- 2.5 kW heating capacity in maximum mode
- Ø 75 mm and Ø 60 mm outlet diameter option
- Air flow rate up to 90 m³/hour

Technical information	Values
ECE R122 Document Number	122 R - 0010869
ECE R10 Document Number	10R - 05 15114
Heating Capacity	0,9-2,5 kW
Heating air flow against 0.5 mbar (max mod)	90 m ³ /h
Fuel Type	Dizel
Fuel Consumption (max)	0,28 l/h
Operating voltage	12/24 VDC
Unit Dimensions	320x130x150 mm
Kit Weight	3 kg
